

LION³

Quick to rig, the Lion is one of our favorite sails because it makes going fast no-hassle. After much testing, for 2016, David made the Lion3:

Lighter

The Lion3 weighs less than the Lion2 because of a new, lightweight scrim, making the sail easier to handle.

Faster

Progressive batten spacing (closer towards the top of the sail) produces a smoother twist.

More controllable in strong winds

The profile above the boom is flatter to give the Lion more control when the wind picks up.

The Lion3 is a race sail stripped of everything that makes race sails difficult. The luff sleeve is narrow and easier to waterstart or uphaul than a wide sleeve that fills up with water. Like the Lion2, the new Lion3 rigs on all RDM and SDM masts. And, like all Ezzy Sails, the Lion3 is built to last.

The Lion3 makes fast easy.

Size (m ²)	Luff		Boom		No. of Battens	No. of Cams	Suggested Mast
	Min	Max	Min	Max			
6.0	444	446	183	189	6	2	430/25/21
6.5	455	457	190	197	6	2	430/25/21
7.5	478	480	206	212	7	2	460/25/25
8.5	501	503	223	229	7	2	490/26/29
9.5	514	516	240	247	7	2	490/26/29
